

FREE MULTI-DISCIPLINARY TRAINING IN CLINICAL SUPERVISION..

Following on from the last very popular and oversubscribed Clinical Supervisor training, West Kent Education Network in conjunction with Health Education England, are holding a Clinical Supervision training day.

This training is a step towards being able to host FY2 doctors in your practice and is aimed at equipping staff to observe students from all clinical disciplines. This includes Practice Managers and MDT members such as therapists, complex care nurses, health & social care coordinators, social prescribing link workers, mental health nurses, and not forgetting GPs, paramedics, nurse practitioners, practice nurses and clinical pharmacists. If your role is not listed, please enquire.

The number of currently trained Clinical Supervisor staff was one factor used in the selection of PCNs for medical student placements and will be very useful for MDT members who will have KMMS students attached in the future.

**This FREE full day event will be held at the Village Hotel, Maidstone ME14 3AQ
on Thursday, 12th March - lunch and refreshments will be provided.**

Numbers are limited, so to register your place, please click on the link below:
